

# SUMMER SCHOOL

## HEALTH & GLOBALIZATION

Is it your ambition to become a student with a worldly vision and are you fascinated by health care all across the globe? Then we've got your summer all figured out!

We are pleased to announce that we are hosting the 10th edition of our Summer School "Health & Globalization", an online program taking place from the 4-14 July 2021, where students from all over the world can interact with each other and our speakers via webinars.

Our educational program covers topics such as human rights, health inequ(al)ities, migration, the spread of infectious diseases, NGOs... and many more. Lectures will be given in English by renowned teachers of Ghent University as well as prominent professors of international institutions.

Not only is this a great opportunity to discover and learn more about these exciting subjects, it's also the ideal occasion to meet new people from different cultures and backgrounds.
